Dash: prof. stucki. Wednesday, November 5
Docker: Kyle M. & Austin. Wednesday, November 12
Azure: Nfaly. Monday, November 17
AWS: Anu & Jennifer. Friday, November 21

You may use any resources, including but not limited to Duckett and the other resources I've provided, in order to prepare your presentation. You should email either your ppt or a detailed outline of what you will cover 48 hours before your presentation. This will give prof. stucki the opportunity to prepare additional material on the subject if he feels it is warranted. You should also include example code and live demos when possible for a maximum grade.
