

COMP 4230

Fall 2024

Prof. Stucki

Assignment #3

Write a 600-800 word essay responding to the following prompt. Your essay should be carefully written, structured to follow a logical progression of thought, and follow accepted standards of grammar, spelling, and composition.

You may have come into this course with some preconceived notions of what AI or machine learning were all about. In the last four weeks we have surveyed the first four decades of AI history, including some of its grim moments and failures. What is your personal judgement about AI at this point in the course? This should include its accomplishments, its aspirations and goals, its possible future, and its own self-perception.

Due: Wednesday, September 25
