

Week 11 - Wednesday

COMP 3100

Last time

- What did we talk about last time?
- Task identification
 - Work breakdown structure
- Effort estimation
 - Traditional: Estimate size (in LOC or function points), then use analysis to predict person-months
 - Agile: Ignore final size but try to estimate work done per sprint in story points

Questions?

Project 3

Work Day

Quiz

Upcoming

Next time...

- Friday is also a work day
- Financial and economic planning on Monday
 - Read Chapter 13: Financial and Economic Planning

Reminders

- **Finish Project 3**
 - **Due Friday**
