

Week 10 - Monday

SLD 2600

Cohorts and Mentors

Introductions

Mentors

- One thing you wish you had known before coming to Otterbein

Organize into mentors and mentees

- Separate by discipline:
 - Chemistry
 - Computer Science
 - Engineering
- Get contact information for your mentor

Team-building exercise

- Each mentor will be given a common phrase in English
- Each team of mentees will need to represent the phrase in a drawing
- The mentor will need to communicate the phrase or direct the drawing **without speaking**

Assignment for this class

- Ask your mentor a question in person, ideally a question that you really want to know the answer to that might help you, academically or personally, at Otterbein
- Type out the question you ask into BrightSpace and upload a selfie of you asking your mentor
- You have until the end of the semester

Upcoming

Next time...

- What if things go wrong?
- Both first- and second-year students are meeting on November 2

Reminders

- Our next class meeting is November 2
- The assignment for this class is due December 2, the last day of classes
 - **Don't forget about it!**
- **Begin to prepare for presentations!**
 - Any topic you find interesting
 - Make a PowerPoint presentation
 - 4 minutes in length, including time for questions
